

# GALLERY333

Gallery333 is an intimate exhibition space at Exeter Phoenix, created to display small installations & contemporary art interventions in nine week long exhibitions.

Exeter Phoenix invites proposals to imaginatively use this space in our upcoming programme.

## Context:

Exeter Phoenix is a vibrant, world class multi-artform venue, home to several art galleries, music and theatre, cinema, film production resources, a radio station, print workshop and recording studios, all centred around a buzzing café bar.

Gallery333 is situated in a prime location opposite the main ramped entrance door to the building, enjoying a large footfall from audiences across our programmes.

## Aims:

We love supporting the creation of new works. Gallery333 is primarily a space for artists to experiment, try new methods of presenting their practice, and to playfully respond to the volume and dimensions of the space.

We are able to offer assistance with installation and deinstallation if required.
